## CONCEPT OF POSITION:

The Licensing Program Analyst series (LPA, Range A, B, C, and D) includes entry, training and full journey level positions. Under supervision of a Licensing Program Manager I (LPM I), LPAs perform analytical and technical work related to the licensing and evaluation of facilities that provide care and supervision to adults and seniors who reside or spend a portion of their time in out-of-home care. LPAs are assigned progressively more difficult tasks as their competence increases, and may independently carry out all phases of licensing duties. LPAs may act in a lead capacity for training of staff, participate on divisional or departmental policy development work groups, and represent the regional office in outreach programs.

### A. RESPONSIBILITIES OF POSITION:

The LPA is assigned responsibility for evaluating community care facilities which include day care programs for adult and adults and seniors who require care and supervision because of age, physical, mental and/or developmental disabilities.

50% Field work, including on-site inspections and collateral visits to facilities in any area under the jurisdiction of the assigned regional office. This includes pre-licensing evaluation visits to analyze facilities and determine if applicants will provide a safe, healthful environment for clients; annual/triennial visits to licensed facilities to determine if facilities continue to remain in compliance with licensing standards; complaint investigation visits, within 10 days of receiving a complaint, to analyze complaint allegations against facilities, and initiate appropriate actions to correct any noted violation of regulation. Collateral visits to placement agencies, other agencies, police departments, schools, doctors' offices, hospitals, etc. may be required as part of the complaint investigation; plan of correction visits to ensure correction of previously cited violations and to issue civil penalties for uncorrected deficiencies; and, caseload management visits to gather and analyze information about unusual incidents, to provide consultation to a licensee who has questions or is experiencing problems, or to provide increased oversight to facilities that are experiencing problems, are on probation or have agreed to extra visits under the terms of a compliance agreement.

For prelicensing, annual/triennial, complaint, plan of correction, or caseload management visits, the LPA inspects the facility, reviews records, and interviews staff and residents in care to determine if the facility is in compliance with regulations. The LPA may review correction of past deficiencies, document any new deficiencies, collaborate with the licensee/facility representative to develop appropriate plans of correction, and provide technical assistance to help licensees and facility staff maintain compliance with regulations. The LPA will document these items in a field visit report prepared during the on-site visit utilizing a laptop computer when equipment is available.

For all types of visits, the LPA progressively learns to analyze more difficult complaints and situations and may act as a team leader on visits.

30% Orientations, Administrative and Caseload Management Responsibilities: The LPA conducts or assists in conducting group orientations and provides licensing information to applicants, licensees, other agencies, and the general public; analyzes policies and regulations; provides information related to workload, program characteristics, and statistical data related to caseloads and production; plans and organizes itineraries and reports related to travel expenses; when laptop computer equipment is available, enters any field reports into the Field Automation System that could not be prepared in the field and ensures all uploading and downloading functions are completed; ensures that updates are entered into the Licensing Information System following established procedures; provides telephone consultation and technical assistance to licensees/facility staff; assesses the need for meetings in the regional office with licensees who are experiencing compliance problems, recommends the type of conference to be held and participates in and documents such meetings; and, prepares responses or draft responses to correspondence. Also, the LPA progressively learns to participate in work groups for program development, changes in policy, procedure, and regulation; and, to represent the district office in outreach programs.

10% Administrative Actions: The LPA progressively learns to analyze information gathered in visits, received from other agencies, including criminal records reports from Department of Justice, and makes recommendations about appropriate administrative actions, including compliance plans, revocations, and exclusions of individuals; prepares Statement of Facts packages which include a summary of problem issues related to the facility and/or exclusion of individual(s) and states the reason for the action requested, a comprehensive list of witnesses and their relationship to the action and all documents from the facility file which support the action; works with legal staff of the Department, local district attorneys, and the Attorney General's Office when action is pending against a substandard or unlicensed facility; serves subpoenas, Temporary Restraining Orders, Temporary Suspension Orders; testifies at hearings and in court; and recommends to management terms of settlement agreements.

5% Training Responsibilities: The LPA is responsible for full participation in all training sessions and/or one-on-one training. Journey level LPAs may assist in training other staff and providing consultation to other staff.

5% Special Projects as assigned.

Frequent travel is required including travel outside of the geographical location.

---

B. SUPERVISION RECEIVED:

LPAs are supervised by a Licensing Program Manager I (LPM I). LPAs receive training and general instruction on licensing policy and division goals. LPMs closely supervise LPAs at Range A and B level and perform quality assurance evaluations frequently. As the level of expertise increases, the quality assurance evaluations are less frequent.

C. ADMINISTRATIVE RESPONSIBILITY:

None

D. PERSONAL CONTACTS:

LPAs have regular contact with licensees, facility staff, children, adults and seniors in care, their responsible parties, and the public; may also meet with or conduct joint visits with fire marshals, long term care ombudsmen and other client advocates, local law enforcement and personnel from other agencies.

E. ACTIONS AND CONSEQUENCES:

LPAs determine facility compliance or noncompliance with statutory and administrative law, issue civil penalties, and may be the first to detect and recommend the need for administrative or misdemeanor prosecution. Failure to observe and cite deficiencies may result in health and safety hazards to clients resulting in neglect, abuse, injury or death, and potential liability to the Department.

F. OTHER INFORMATION:

LPAs must possess a valid driver's license and be able to travel frequently (sometimes overnight) and outside of the geographical location. LPAs must have good verbal and written communication skills and be able to maintain composure in stressful situations. LPAs are subject to fingerprinting and a criminal record check by Department of Justice and Federal Bureau of Investigation.
