MISSION OF SECTION: The Special Analysis Section (SAS) provides analytical support for the Consumer Products Program by testing consumer products, aerosol coatings products and composite wood samples. SAS ensures compliance with volatile organic compound standards, toxic air contaminant prohibitions, and greenhouse gas emissions. SAS staff also perform analysis on composite wood products for formaldehyde emissions and provide additional laboratory services in support of investigative and special studies for CARB's various other Air Pollution Control Programs. Additionally, SAS staff are responsible for chemical analysis, analytical data review and reporting, sample management, maintaining chain-of-custody, and specific analysis to support CARB's Enforcement Division and Transportation & Toxics Division.

CONCEPT OF POSITION: Under close supervision (Range A), supervision (Range B), or general direction (Range C) of an Air Resources Supervisor I the incumbent performs air pollution specialist work with specific duties as follows. Range C may be assigned to act as section lead.

<u>% OF TIME</u>	<u>RESPONSIBILITIES OF POSITION</u>
40% - E	Perform chemical analyses of laboratory samples in accordance with an approved method, CARB's Method 310, or appropriate standard operating procedures.
30% - E	Write, proofread, correct, and edit laboratory test reports. This also includes the evaluation of results to ensure that appropriate standard operating procedures and quality control procedures are followed and implemented. Input laboratory data accurately into established Laboratory Information Management System.
20% - E	Design, develop, revise, and validate laboratory test methods as directed for the analysis of Consumer Products, VOC compounds, composite wood samples, or other chemicals of interest. Validate new laboratory instrumentation and provide verification of existing laboratory instrumentation. Follow proper handling, storage, and disposal of laboratory hazardous waste in compliance with CARB's Environmental Health & Safety Branch, appropriate laboratory procedures and State and Federal hazardous waste handling laws and regulations.

DUTY STATEMENT

10% - M	Receive samples as directed, maintain laboratory instrumentation and facilities. Perform miscellaneous duties, as directed, to maintain operation of the Special Analysis Section, including procuring new equipment, preparing reports, speeches, presentations, and correspondence for CARB management, reviewing innovative product formulations and regulations. Performing these duties may require driving a motor vehicle. May perform other duties under the scope of the classification.
