May be required to work rotating or irregular shifts including weekends, nights and overtime. The above duties may require prolonged stooping, bending, lifting, sitting, climbing or standing. May be required to work in extreme warm or extreme cold weather and during inclement weather. Percentages may vary depending on crew, geography and season.

ADA Notice

For individuals with sensory disabilities, this document is available in alternate formats. For alternate format information, contact the Forms Management Unit at (279) 234-2284, TTY 711, or write to Records and Forms Management, 1120 N Street, MS-89, Sacramento, CA 95814.

POSITION DUTY STATEMENT

PM-0924 (REV 01/2022)

Much of this position is labor intensive. Incumbent must have physical ability to react quickly to errant motorist and do strenuous hand and mechanical labor.

Note: For standing, walking and sitting, along with several other activities, typical duties are used as examples in various situations to give ranges for the activities. Generally, activities can be broken down into operating equipment and vehicles up to 20% of the time on a year-around basis. The remainder of the activity may be labor.

Standing, Sitting and Walking are described to equal 100% of the work time for a given period such as a work shift. The following are various situations and percentages given to illustrate typical ranges of time spent sitting, standing and walking:

- A. Rainy day where worker is digging out clogged ditches and drains: Standing and walking using hand tools 40% each: Sitting and driving 50%.
- B. Snowy day: Sitting and operating large trucks, loaders, motor graders and snow blowers 90%; walking and standing, checking out equipment, 10%
- C. Crack sealing: Standing and walking 95% of the day
- D. Chip sealing: Standing, operating truck, loader, spreader, 80% to 90% of day
- E. Paving: Operating trucks, motor graders, loaders, pavers, 45% of day. Standing and walking, raking and shoveling, 45% of day.
- F. Litter pickup/patrol: Lifting, walking and climbing in/out of vehicle 95% of day
- G. Flagging/Pilot Car/Lane Closure Operations: Standing, twisting and turning, and sitting 95% of the day

Lifting (Floor to bench to Floor) – Items listed may be any of the following but not limited to tire chains for vehicles that may weigh as much as 75 pounds per chain. In the winter months these could be handled on an every day basis, post driver which weighs approximately 60 pounds, assist with the loading and unloading of a tire on a rim which can weigh over 75 pounds. Another example of lifting is shoveling asphalt, each shovel full lifted weighs approximately 15 pounds and 1,000 to 1,500 pounds of sand or asphalt per day would normally be lifted. 80% of this lifting would be floor to waist and 20% lifted above the waist. Installing marker post, at least two feet into the ground, requires lifting up and pulling down the 60 pound driver 10 to 150 strokes per post worker could install up to 40 markers per day.

Another type of lifting is light pickup – loading garbage bags with litter, which requires continuous bending and lifting.

Moving Material – Incumbent may be required to move bagged/boxed material, which can weigh from 50 to 100 pounds. Material may be moved from storage areas to vehicles and from vehicles to job sites, which may be on uneven terrain. Tools carried including picks, shovels, hoes, rakes, hoses, signs, standards, flags, cones, guide posts etc. and may be moved on uneven terrain. Incumbent should ask for assistance when moving items over 50 pounds.

Overhead reaching – Overhead work includes pulling yourself up into many types of equipment from 0 to 30 times per day, pruning, holding up signs off a ladder, servicing equipment on the lube hoist, signaling other workers, and throwing/loading material in equipment.

Other Reaching – Setting cones, lubing and checking equipment, raking, shoveling, driving, using digging bar, shifting, holding signs picking up cones often done on a continuous basis, over 60% of the work shift.

Pushing/Pulling – Shoveling, opening garage doors, hooking up trailers, installing plows, sanders, kettles, pulling on hoses, working cranks on equipment stands, tightening and loosening nuts on bolts. Installing and removing tires and chains, pulling down on post drivers. Pulling brush and limbs, animal carcasses, and pulling tire chains.

Twisting - The Operator twist while driving equipment and does so on a continuous basis especially while backing up or turning around while operating a pilot car. Other twisting is done while dragging brush, shoveling, raking and setting down and picking up traffic cones which weigh approximately 10 pounds.

POSITION DUTY STATEMENT

PM-0924 (REV 01/2022)

Climbing/Balancing – Climbing is done in and out of equipment, up and down banks and used in fine manipulation of a chain slopes, ladders, stairways, (often with a load of material or supplies) onto steps and walkways to do engine checks on equipment. One example would be to climb on a heavy equipment trailer to secure the load with chain binders.

Bending/Crouching/Squatting/Crawling – The Operator often bends continuously throughout the day while operating equipment and performing physical labor. All of these activities are necessary when picking up and laying down tools and material. The Operator also crawls around and underneath equipment while checking and servicing equipment, putting on or removing snow chains and tightening or replacing grader blades.

Simple Grasping – This activity is necessary about 95% of the shift climbing in/out and around equipment, operating equipment, using hand tools and handling materials.

Fine Manipulation – This occurs less than 2% of a day and usually while writing reports or manipulating the knobs and levers on the equipment. A higher percentage of the time would be operating chain saw or similar equipment.

Importance of hearing and sight – both are essential on the job because the operator must hear directions and equipment, and must see in order to perform his/her duty safely.

Hearing should be adequate to hear warning devices used for worker safety, i.e. look out alarm devices, including vehicle horns used to warn employees of eminent danger at the work site. Corrected hearing is acceptable.

Sight needs to be corrected to the State of California Department of Motor Vehicles standards for safe vehicle operation.

WORK ENVIRONMENT

Required to work in a wide range of sometimes-extreme conditions, such as heat, cold, strong winds, rain, sleet, and snow. This includes heat up to 120 degrees and cold to –15 degrees.

Incumbent will be on the 4/10 work schedule. Please note that the schedule may change at the discretion of the District Management and/or Supervisor.

Incumbent may be scheduled to work the night shift during the months of November, December, January, February, March, and April or as scheduled by the Maintenance Supervisor. May be required to work overtime due to storms, emergencies, special work projects, or when the Supervisor deems that it is in the best interest of the State to work overtime. The incumbent will be expected to respond to emergency call-outs, may be required to work temporary and/or intermittent varied work shifts, may be loaned to other cost centers to help during storm events and other natural disasters and with normal maintenance operations.

Personal safety requirements include:

- A. Work boots, in good and sturdy condition, must be worn to provide foot and ankle support protection.
- B. Either long or short sleeved shirts provided by Caltrans, or a safety vest is to be worn over non-safety shirts or coats.
- C. Long pants.
- D. Provided safety gear; hard hat, safety glasses, hearing protection devices, face shields, gloves, respirator, chaps, or other safety gear must be worn when required by the Department.
